

Total Immersion Effortless Endurance / Smart Speed May 30-31, 2020 Atlanta, GA

Location: Sheffield Pool, Mercer University, 3001 Mercer University Dr, Atlanta, GA 30341

Effortless Endurance: Learn the core TI stroke mechanics that have transformed thousands. Effortless Endurance sets the table for efficient swimming by developing proper alignment, balance and stroke timing. This builds a reliable foundation upon which we add core rotation, proper limb orientation/coordination, and breathing skills. Our carefully planned learning sequences ensure you'll make near-instant progress during the class. In only one day we guarantee you'll walk out a better, smarter swimmer. As with all of our courses, the coaches are in the water with you providing hands on help and instant feedback.

Expert Skills: Expert Skills refines the mechanics learned on Saturday with clear practice strategies to consolidate the various stroke components into effective wholestroke swimming. Learn to structure your pool sessions and build efficiency-reinforcing focal points into each lap, making every practice an investment in skill acquisition, endurance and speed. We'll dive into the metrics of tempo and stroke length to teach you how to generate and sustain velocity. Expert Skills is the perfect follow up to Effortless Endurance and offers an exciting new curriculum for TI alums to further enhance their skills and performance.

Tuition: Effortless Endurance (\$295); Expert Skills (\$295); Full Weekend (\$495)
